## SUMMARY

Dynamic Digital Security Professional with a bachelor's degree in computer application and experience in vulnerability assessments and penetration testing. Proven ability to identify and exploit vulnerabilities in software, applications, and infrastructure to harden cybersecurity posture. Skilled in security research on emerging threats and integrating findings into assessments.

## EDUCATION

Savitribai Phule Pune University	Nashik, Maharashtra
Bachelor's degree, Computer Application (CGPA: 7.05)	2019-2023

## WORK EXPERIENCE

<b>Job title   Cyber Security &amp; Digital Forensics Internship</b>	<b>Dec 2023 – Feb 2024</b>
--	----------------------------

Company | Cyber Secured India

### Description:

- Conducted in-depth penetration testing of web applications using **Burp Suite** and **OWASP ZAP** to identify and remediate critical security vulnerabilities, aligning with **OWASP Top 10**.
- Utilized static code analysis tool **Bandit** to uncover potential security flaws within codebases, adhering to secure code review practices.
- Enhanced application security by effectively identifying and mitigating high-severity vulnerabilities, contributing to a more robust security posture.

<b>Job title   Cybersecurity Intern</b>	<b>Feb 2024 – March 2024</b>
---	------------------------------

Company | Technohacks EduTech

### Description:

- Conducted vulnerability assessments and penetration testing of network infrastructure using tools like **Nessus** to identify and remediate security weaknesses.
- Analyzed network traffic with **Wireshark** to detect suspicious activity and potential threats like **DDoS attacks**.
- Worked collaboratively with the security team to ensure adherence to security protocols and procedures.

## PROJECTS

- Configured Microsoft Defender Firewall for System Protection against Threats
- Identified and Patched System Vulnerabilities with Tenable Nessus
- Simulation and Analysis of DDoS Attacks using Yersinia and Wireshark

## SKILLS

**Technical Skills:** Vulnerability Assessment & Penetration Testing • Network Security • IDS/IPS • Firewall • Threat Hunting & Mitigation • Secure Coding • Web Application Security • OWASP Top 10

**Software Skills:** Tenable Nessus • BurpSuite • Metasploit • Wireshark • Acunetix • Nmap • Nexpose • SQLMap • IBM AppScan

**Soft Skills:** Communication • Problem-Solving • Team Collaboration • Analytical Skills

## CERTIFICATIONS

- Certified Ethical Hacking (CEH)
- Red Hat Certified System Administrator (RHCSA)
- CISCO Certified Network Associate (CCNA)
